

2011-2012 WFB SOCCER CLUB Winter Soccer School Training

Soccer School Curriculum

The development of individual foot skills will be the main focus. Ball control, first touch, passing, receiving, turning, and dribbling to beat an opponent will be among the many components of development. Additionally, small-sided games will be played in order to teach tactical principles imperative to the game of soccer.

Soccer School Training Program – U7 – U10 Players

Just as before, this program is offered in addition to Whitefish Bay’s recreational soccer program. It allows players to obtain select level coaching while continuing to play with their recreational teams. Players will now have the option of signing up for the entire season or they may sign up for individual Soccer School Seasons (fall, winter or spring). The Soccer School outdoor (fall and spring) training sessions will continue to be held on Fridays at a local WFB park. Indoor training sessions will be held on Fridays at a local WFB school gym. All Soccer School sessions will be conducted by a WFB SC select level coach.

Fall Soccer School Training Recap

Whitefish Bay Soccer Club’s fall Soccer School Training program was a HIT! We had 64 players registered and over 12 WFB academy and staff coaches take part! Players worked on a variety of different skills through fun activities and small sided games.
